ABOUT TERRIE SANDERS

In sharing the Three Principles as discovered and taught by Sydney Banks, Terrie Sanders is interested in going deep into the moments when consciousness shifts occur. Giving people the opportunity to once again wake up and walk in a whole new world of experience. Sometimes this can even bring more than they once imagined to be possible.

Along her journey, she has been privileged to be with and gain her shifts from special people including Sydney Banks, Elsie Spittle, Chip Chipman, Jan chipman.

"It is hard to describe Terrie Sanders in a few words because there are so many wonderful things to say about her. First and foremost is her love of life and her deep understanding of the spiritual nature of life.

Her ability to SEE the connection between the physical and spiritual dimension provides hope and inspiration to all she comes in contact with.

Her gentleness of spirit, coupled with her understanding of the '3 Principles', allows her to reach people and touch them with great depth, thereby changing their lives."

Elsie Spittle.
